FRENCH JUSTIFY CLAIMS

Parisian Papers Say Only Solution to Prevent War. Payment of Indemnities Also Discussed

(By Associated Press)  
Paris, March 31.—The probability that important final decisions will be taken this week by the peace conferees is pointed out by the French papers today.

Dwelling upon the French claims, the newspapers reiterate their arguments that these are just and legitimate and absolutely necessary for the safety of France and the world.

The Echo de Paris claims to know that in order to assure the security of the French frontier it will be made obligatory upon Germany to destroy her forts on the right bank of the Rhine with the allies occupying the left bank until the war indemnity is paid.

Regarding indemnities the experts, the paper says, have admitted the impossibility of Germany paying enormous amounts during the next two years.

The paper says it understands the payments required will be on a rising scale yearly each of the allies to receive its share either in cash or various products.

### AMERICANS ALSO OWN LAND

American Embassy at Mexico Asked to Verify Reported Concessions to Japanese

Washington, March 31.—(Associated Press)—The American Embassy at Mexico City was instructed today to make inquiries concerning the report that the Mexican government has granted concessions to Japanese in Lower California, and to report the facts as quickly as possible.

No official information has reached the Department about the concessions and surprise was occasioned by the dispatch from Mexico City yesterday quoting General Aguirre, Under Secretary of Development and Agriculture, as saying they had been granted.

The American government is interested both because of the apparent success of Japanese in obtaining a long-sought foothold in Lower California and because the tract of land involved was developed and is claimed by an American company whose rights were declared forfeited by the Mexican government in 1917.

ment.

London, March 31.—Geo. Lansbury, editor of the new labor newspaper, The Herald, declares the allies have received a proposal for an understanding with the present rulers of Russia, and intimates that the conditions of that understanding are the withdrawal of allied transportation of Russia and abandonment of the trade policy of interference in Russian affairs.

Russia, on her part, would be willing not to interfere with the affairs of other nations; allow Finland, Estonia, Ukraine and other republics formed from the former Russian empire to choose their own governments and to pay Russia's international debts. The writer minimizes stories by Russian revolutionaries.

It was announced by the police today that all of the 65 persons arrested during the demonstration were released except one.

## REPUBLIC MORE POPULAR AMONG THE PORTUGUESE

Monarchy in Oporto Lasted Just One Month Before Overthrow Came.

Many Lives Lost in Revolt and Counter Revolt in Portugal.

Lisbon, March 3.—(Correspondence of the Associated Press)—The monarchy established at Oporto and other districts in the north of Portugal proved ephemeral. Barely a month after its proclamation and enthusiastic welcome, a counter-revolution within the city, seconding the attack from outside by the republican troops sent by the government, succeeded with equal enthusiasm in restoring the republican flag on the spires and steeples of Portugal.

The royalists were led by Paiva Couceiro, a very brave and tenacious soldier, but an ineffective organizer. The continued dissensions between republican factions led him to suppose the moment propitious for a return to the monarchy, and, without any agreement with the royalists of Lisbon and the south, he placed himself at the head of the monarchist element of the north, and, at the head of several thousand troops, proclaimed the monarchy at Oporto and in the northern provinces.

A provisional government was established; laws were issued, and local administrative authorities appointed everywhere. Couceiro expected that other victorious royalist rising would follow all over the country. In stead of this, the Lisbon insurrection of Monsanto failed, and the same occurred in other localities, while in many centers there were no disturbances of public order.

In face of the royalist danger, all the republicans joined forces against the common enemy; momentarily forgetting clashing ambitions, and uniting to combat the north. Thousands of troops, seconded by marines and civilians, warships and aircraft, were soon in full operation against the monarchist hosts, whose strongholds, one after another, fell into the government's hands, and the surrounding of Oporto was merely a question of time.

Then came the sudden dramatic climax. The royalist government had resolved to appeal to the foreign powers for the recognition of their belligerency. Republican officers in Oporto, who had been meeting secretly and conspiring to bring about the downfall of the "kingdom" of the north decided not to wait any longer, as the acceptance of belligerency by foreign powers meant the arrival of arms, ammunition and the moral support which would weaken the claims of a republican victory.

Paiva Couceiro and his staff were fighting at Lamego on the 15th, and on that day the counter-revolution at

Oporto broke out. Sharp fighting took place; but the big batteries of Leixoes Bay were in republican hands, so that the warships could approach and land their contingents at Oporto without danger.

The royalist "government" was placed under arrest; prisoners were freed, and the blue and white flag replaced by the red and green banner of the republic. The royalist troops returning from Lamego and other scenes of hard fighting, weary, hungry and demoralized, surrendered and were disarmed by the republican forces awaiting them outside the gates of Oporto.

## DIFFERENCE IN SCHOOLS CLOSING

Apparently there is a variance of some 45 days in the closing of the rural and village schools of the country.

The first schools to close will be two in the southern part of the country, and these will be closed on April 11th and 15th respectively.

From that time onward various schools of the country will close until the latter part of May, this being due to late beginning on account of new buildings, and influenza epidemics.

## SHEPPARD HOME OVERSHADOWED

Mr. and Mrs. J. E. Sheppard of North North street have the deepest sympathy of their many friends in the loss of their little son, Jonathan E. Jr., who for almost seven years has contributed so largely of his happy, sunny nature to the gladness of the home. He was an unusually bright and lovable child, a special favorite in the neighborhood, which shares to an unusual degree in the sadness of the home.

The little boy was seriously ill with influenza after Christmas and a relapse later and subsequent illness found his strength too feeble to overcome. For many days the family and friends hovered anxiously over him, with every aid of medical science unavailing, until the rustle of the death angel's wings brought realization that the beloved child had been transplanted to God's Garden, leaving to comfort the parents four children, Ruth, Thurman, Charles and Susan.

Funeral services will be held at the home, Rev. McWilliams officiating. Tuesday morning at ten o'clock and burial will be made in the Washington cemetery.

## MISS RUTH BROWN'S CONDITION BETTER

Considerable anxiety of the many friends of Miss Ruth Brown is relieved to find that earlier reports concerning an X-ray examination taken in Columbus of the arm broken in an auto accident on Friday, the 21st, were greatly exaggerated, and the injured arm is doing as well as possible.

The fracture was of the forearm, broken at its middle—one of the worst fractures possible. The attending physicians gave an anaesthetic and set it, putting on a temporary splint. On the following Wednesday they put on a permanent plaster splint, advising that an X-ray picture be taken to be sure everything was right. Mrs. A. M. Brown was advised to take her daughter to Dr. Bowen in Columbus for the X-ray. They went on Friday and Dr. Bowen after taking two X-ray views, stated that the bone had been very badly fractured. Mrs. Brown phoned one of the attending local physicians that there would probably need to be a re-setting and the physician took the evening train to Columbus and called in an expert surgeon to view the pictures. The Columbus surgeon pronounced the bones set as well as it could be done and said that re-setting would be more likely to make them worse than better.

On Saturday morning the pictures were taken to two other surgeons, one a bone specialist. Both, after viewing the pictures of the arm, said that it was best to let it alone, as it was very well set and in their opinion would result in a perfect union.

## TEACHERS AND BOARD MEMBERS ATTEND SESSION

Profitable Meeting of The Teachers and Members of Boards of Education Held at High School Building Saturday.

Well Known Educators Deliver Addresses at Morning and Afternoon Sessions.

The joint meeting of the teachers of the rural and village schools and the County and Rural and Village Boards of Education, held at the Washington High School building Saturday, and presided over by County Superintendent of Schools, O. S. Nelson, proved decidedly profitable to the large number in attendance, two leading educators of the state addressing the assembly.

Rep. W. E. Wenner, of Ashtabula county, delivered two addresses, one at the morning session and the other at the afternoon session.

In the forenoon Mr. Wenner spoke on "The Hand at the Nation's Throat"—the growing tendency of the individual to violate the laws.

Mr. Wenner declared that a great many people want to be a law unto themselves and that as result of improper example set by persons in authority and improper training of the boy and girl, the disregard of law and the consequence that follows such disregard is growing.

"A Square Deal for Jack" was the theme for his afternoon address, and in this address Mr. Wenner urged the necessity of good schools, good salaries for teachers and development along the proper line with a view to practical application of the knowledge gleaned from schooling. The four chief qualifications of a teacher were announced in their relative importance as follows: Personality, sympathy, knowledge of the needs of the boys and girls and scholarship.

Vernon J. Riegel was unable to attend the conference.

Dr. Henry G. Williams, center of The Ohio Teacher, and former Dean of Ohio University, spoke on "Taxation," declaring that the physical equipment of a school, such as building and furnishing, should be paid for by taxes on the district included, and that expenses for teaching, etc., should be borne by state taxation.

Dr. Williams cited the closing of hundreds of schools in the hill counties of southern Ohio because insufficient funds were obtainable to carry on the schools, making short terms necessary.

Music for the meeting was furnished by Miss Mazie Kessler and pupils.

## WOUND IS FATAL TO SABINA BOY

A rifle shot wound, inflicted by a gun in the hands of Aaron Lewellen, aged 8, Saturday, proved fatal to Gordon Hargrave, aged 5, of Sabina.

The two boys were playing together Thursday night of last week and the elder lad had a 22 calibre rifle. "Shoot me," exclaimed his little playmate, and, not realizing that the gun was loaded, the boy fired and the bullet penetrated the lad's skull.

After washing the blood from the lad's wound and hiding the gun the Lewellen boy hauled the unconscious boy to a doctor's office, to have his wound dressed and it was 24 hours before the true story of the affair came to light.

A post-mortem examination disclosed that the bullet had penetrated the boy's skull and after passing entirely through the brain, lodged in his skull on the opposite side of his head.

## TURK HAS AMPLE FOOD TO SUPPLY PRESENT DEMAND

Prices Are High but None Are Starving is Report—Vegetables Relatively Cheap

Constantinople, February 28.—(Correspondence of the Associated Press)—Contrary to reports Turkey is well supplied with food, and, while prices are unusually high, they are much lower than those prevailing in the Balkan states and in some other countries of Europe.

The following list of current prices which the consumer is called upon to pay shows the actual condition: Flour 25 cents pound; potatoes 11 cents; beans 20 cents; meat 50 cents and eggs 90 cents a dozen.

Vegetables of all kinds are not only abundant but relatively cheap. Clothing and shoes also may be had, generally the prices charged are so high as to take them far beyond the purses of the poor. Hotel rates are lower than in most European cities, and the service is as good as could be expected in a country just emerging from a long war.

In order that foodstuffs may be placed within range of the poor, the American food administration is now selling white flour at ten cents a pound which is expected to bring down other prices as far as the actual necessities are concerned. The work of the Americans is attracting wide attention and much interest.

Drugs, and in fact all medicines, are very scarce and expensive. Most large centers in Turkey and Asia Minor need medical assistance.

## Official Generosity.

Postmaster General Burleson announces that telegraph tolls are to be increased twenty percent to meet increased wages to operatives.

Whatever else may be said as to public ownership or public control of utilities, certainly the government officials have been generous in raising wage scales. Employees of those public utilities which have passed under government control "as war measures" have no cause to desire a return to private control.

Government officials can afford to be generous in dispensing compensation advances. There is no ruinous or any other kind of competition to interfere and the increased cost is passed on in percentage increases to the general public; any deficit remaining, should the rate increase prove insufficient, is passed to the treasury books to be taken care of in the future, possibly by an appropriation.

The general public, however, now since the urgent need of war work has passed, is unable to see any good reason for continuing public control of public utilities which thus far has resulted in less service and greater cost which must be met either in direct increases or in point blank appropriations of the public funds.

Uncle Sam has been spending money profligately. The war bills are enormous. The sums already spent are appalling in their immensity. As long as war gave no time for economy the people paid without question. Now people are beginning to think it's about time to confine our financial disbursements to liquidating war debts without launching out into new extravaganzas.

May be, of course, we, the people, don't know it all, but that's not the fault of the people. They would know if they were told the facts.

## Bribery Scandal.

Once again rumors of scandal are circulating regarding some members of the General Assembly of Ohio. An attempt to bribe some members is charged in these ugly rumors and the attorney general is directing an inquiry to determine whether there is basis in the rumors for placing a criminal charge against any individuals either in or out of the assembly.

For a long time now the legislative body of the state has been free from suspicion. No taint of dishonesty has attached to any member for several years now and the people of the state had made up their minds that the old days of graft were gone forever.

Now that the matter has become known, generally, it should be probed to the very bottom and the rumors disposed of by proof of fact. If there is any guilt attaching the criminals should be brought to the bar of justice with a promptness and punishment meted out to them with a certainty that will be a lesson to them and an example to anyone who may, possibly, in the future mistakenly conclude that any member of Ohio's General Assembly is "susceptible."

The bribe giver as well as the one who offers a bribe is as guilty as the man who abuses the confidence of his constituents and converts a public trust into a subject to be bartered away for the money of those who have a selfish purpose to serve.

We must keep up the high standard which has been so firmly established. Legislators must be honest and above suspicion else the government foundations will crumble into ruin.

## The Big Bulwark

The passing of Hungary to the side of Bolshevism has served to arouse the world to an appreciation of the dangers of the time.

Bolshevism is the outgrowth of discontent and ignorance. Russia, with its scores of millions of uneducated peasants was ideal for the development of the germs of radicalism run riot. Relieved from the tyranny of Czarism the scores of millions of oppressed and ignorant Russians were ready to embrace, at once the doctrine of destruction.

The population of Hungary and the small nations to the south is such as might have been expected to embrace Bolshevism in all its horrors.

The outbreaks in Germany were put down with comparatively little effort. The Germans are educated and love order and prosperity and comfort. The Russian masses are ignorant, slovenly and wholly devoid of ambition. They have no appreciation of individual liberty or individual prosperity.

Whether the people of Austria-Hungary are able to recover from the present attack of Bolshevism depends almost wholly upon the intelligence of the population.

The greatest bulwark against the doctrines of Lenine and Trotsky is education, employment and wholesome ambition.

There seems every reason to believe that the educated, prosperous people of western Europe will not adopt Bolshevism which is but a reaction to be expected following years of despotic rule.

## POEM FOR TODAY

### OUR BOYS

They are coming home, our boys that are men,  
But life will be never the same again;  
There's a cursed "culture" across the sea,  
That did not appeal to you or me.  
So our boys went over, we loved and cried,  
When this one advanced, or that one died;  
But they're coming home, and our boys are men,  
And life will not be the same again.

For having stood in the front or van,  
They're the fighting men of the new born clan;  
And the old conditions are worn away  
And content is not of their yesterday.

Father in heaven command the boys,  
Spare them all of the world's alloys;  
They know danger, and trust and pain  
Lend them the pleasure of life again.

—Lura Kelsey Cler Denine.

## FARM NOTES

Egg Prices Justify Maximum Production.

Late market reports indicate that eggs are going into storage this season at prices practically as high as for the season of 1918. The open winter resulted in an egg production far above normal, which brought to the New York market more fresh eggs for the winter months than in many years past. At the same time the storages unloaded their supply more rapidly than last year, reporting 43 percent less eggs on January 1, 1919 than on January 1, 1918. This showed a ready demand for the available supply.

The hens which laid heavily during the past mild winter will probably not lay as many eggs this spring as they normally would after a cold winter. Coupled with this fact there are fewer hens in the country than before the war, and if storages absorb the usual number of eggs, the price should remain reasonably firm over spring and summer.

Poultry keepers are therefore justified in using the best methods of feeding to secure maximum egg production, says A. B. Dann, poultry specialist at the College of Agriculture. In fact, hens can be profitably kept only when they have all they will eat of a well-balanced egg producing ration. This means hopper feeding of dry mash with meat scrap at all times. Good mash can be bought ready-mixed or made up by weight of two parts cornmeal, two parts wheat shorts or bran and middlings, and one part meat scrap. In addition to this dry mash, feed a little grain or litter for exercise in the mornings, and all the grain they will eat at night. Also provide oyster shell, grit, water and such green feed as is available.

## SWINE PLAGUE ON THE DECLINE

Since 1913, the dreaded disease has become less and less destructive each year. A force averaging 165 Federal veterinarians has been maintained, working in co-operation with State authorities in charge of quarantine and other regulatory measures necessary for the success of control work. During the fiscal year 1918 more than 5,500,000 hogs were inoculated with anti hog cholera serum, and more than 2,200 farms, found to be infected with cholera, were cleaned and disinfected under supervision of the department veterinarians.

Altogether, representatives of the department visited more than 15,000 farms to investigate reported outbreaks, to apply preventive measures, and to clean and disinfect premises. How great a menace hog cholera has been to the Nation's swine industry may be judged from the accepted estimate that 90 per cent of the hogs lost from all ailments die from cholera. In 1918 the death rate of swine from disease was placed at 421 per thousand. Thus the loss was slightly above 4 per cent for the United States, the lowest on record, according to the department's figures.

## MRS. W. W. MILLIKAN ANSWERS SUMMONS TO GREAT BEYOND

The passing over into the eternal promise of the open seas of Mrs. William W. Millikan at ten o'clock Sunday night, brought within the circle of its shock and sorrow many and warm friends in this community.

Although for the past year Mrs. Millikan has had a serious heart trouble, which in the last few days drew closer the shadow of separation, yet the farewell summons came with unexpected suddenness to her own devoted family and to an even greater degree, to the friends who feel with them so deeply. To her husband, her two daughters, Mrs. Fuller Hess and Mrs. G. L. Spragg and to the only grand daughter, Aileen Hess, is left the beautiful memory of an unselfish love which permeated every relation of the home life. Here was her greatest sphere of action and to the interests of these loved ones nothing was ever given preference.

Yet, Mrs. Millikan, as a member of one of Washington's old and prominent families, had found many demands pressing upon her throughout the busy years; had been actively identified with the church and social life of the community, a member of its clubs and doing her part in the patriotic and charitable work of Washington.

Her philanthropy was the practical kind that came spontaneously from a warm heart. She was tireless in doing whatever was possible for the comfort of family and friends—a wonderful neighbor, thoughtful and kind to an unusual degree.

Until ill health prevented, Mrs. Millikan was especially prominent in the work of the First Presbyterian church, giving largely of her time and effort to its various organizations and activities.

She was also an interested member of the Ladies Circle of the G. A. R. In all these relations of community life she has an abiding place and will be greatly missed.

Before her marriage Mrs. Millikan was Anna Smith, daughter of L. W. and Lydia Smith, and is survived by two brothers, A. W. Smith, in San Francisco, and L. W. Smith, in Portland, Oregon. Although she was born in New Lexington, O., most of her girlhood, except the years she spent in school at Glendale, were passed in this city.

Funeral services will be held at the home on Washington Avenue and East street, Tuesday afternoon at three o'clock. Rev. J. L. McWilliams officiating. The burial will be made in the family lot of the Washington cemetery by the side of the only son laid to rest some years ago.

## S. S. CAMPAIGN IN THIS COUNTY TO COME LATER

Victory Reconstruction Program in Fayette Will Not Be Carried Out in Conjunction With Remainder Of County.

General Secretary of Ohio S. S. Association Gives Interesting Address.

At a meeting of representatives of the Sunday schools of Fayette county, held at the Y. M. C. A. Saturday afternoon it was decided that Fayette county Sunday schools would not take part, at this time, in the Victory Reconstruction campaign for \$1,000,000 in Ohio but it is planned to take this up later.

Fayette county's portion of the amount, it is announced, would be only \$1400.

At the conference addresses were made by Mrs. Geyer, of Xenia, District Organizer Clarence L. Depew, and State Secretary of the Ohio State Sunday School Association, Arthur T. Arnold. No organization was perfected in this county.

In his address Mr. Arnold said in part: "These are days of big things. Every worth while organization is enlarging its program to meet a very definite post-war need. All such plans should be heartily supported by all true citizens."

"Nothing is more imperative than to enlarge the program of religious education. The present methods for the teaching of religion must be supplemented."

ARTHUR T. ARNOLD.

He told his audience that 13 hours of religious instruction per year, given on the average in the Sunday schools is not sufficient. "Let it be remembered that the public school gives on an average 25 hours a week of instruction to make people intelligent, and the 13 hours of religious instruction per week given by the Sunday school is not sufficient to lay the basis for a righteous life. Let it be remembered that if America is to be safe, two things are absolutely essential for our citizenship; that they shall be intelligent and that they shall be righteous."

He continued by outlining the program of this campaign. He said: "The Ohio Sunday School Association through its auxiliaries is planning an enlarged program through the promotion of the Daily Vacation Bible schools, Day School Credit for Bible Study, Community Training Schools, Schools of Principles and Methods, and by increasing the services that the Association is rendering to the local Sunday school. Among the new leaders needed for this work will be an Educational superintendent, who is an expert in religious education; a school administration superintendent, who will lead the ten thousand superintendents of Ohio; a Young People's Division Superintendent

ent for girls and a negro worker to help the negro schools. In addition the state has been divided into twelve zones, and it is proposed to place a Director of Religious Education into each one of these zones, who shall do intensive work."

In speaking of the leaders back of this campaign he said, "The fact that this program and campaign has been approved by such men as Presidents W. O. Thompson and W. G. Clippinger; Fred C. Croxon, Columbus; Frank L. Brown, New York; Dr. Alexander Henry, superintendent of Sunday School Work, Presbyterian church; Dr. Sidney A. Weston, editor Sunday School publications, Congregational Church; Dr. Rufus W. Miller, Secretary Sunday School Board of Evangelical Church; C. V. Vickrey of the Layman's Missionary movement; Dr. William E. Chalmers, Baptist Educational Superintendent, and many others, ought to assure for the campaign the most cordial support."

## NEW HOUSE IS VERY CURIOUS

London, March 31.—(Correspondence of the Associated Press).—The new House of Commons is proving itself one of the most inquisitive of recent years. This too, despite the absence of the Irish members who in previous years have filled the question paper with inquiries.

Since the opening of the parliament the number of questions to ministers has averaged well over 200 and some days has reached nearer 300. As only an hour is allowed each day for the asking and answering of questions only about a hundred can be dealt with daily, the others being answered in writing. This does not satisfy the curiosity of the new members, who recently asked that the time should be extended by an hour and a quarter.

In refusing the request, Mr. Bonar Law, the Government leader in the House of Commons said ever question asked cost the country five dollars, chiefly in printing, not counting the time of the permanent staffs of the different departments, who have to collect the data.

## ROLL OF HONOR

Monday's list of casualties contains 103 names including five Ohioans. Sunday's list contained 76 names and included three Ohioans.

The Monday's list was divided as follows: killed in action 14; died of accident 14; died of disease 51; wounded severely 16; missing in action 3; died of wounds 5.

## OFFICER'S BODY FOUND

London, March 31.—Official communication referring to the outbreak in the Southern provinces of Egypt have been received here from Cairo. They say that a train from Luxor was attacked at Minich, March 15 and partially sacked. Bodies of seven British officers who had been murdered were found in the guard's car. On March 15, at Beni-Souef a crowd invaded the courts during their sitting, drove out the officials and made an attempt to seize the British Judge.

## SEIZED LIQUOR TO BE SOLD

Nashville, Tenn., March 31.—Large quantities of liquor stored in the Custom House here will be sold at auction in Kentucky and other "wet" states under an order issued by Federal Judge Sanford. The liquor was seized under the Reed "bone dry" law.

## EXPECT SPEEDING UP OF ACTIVITIES IN LEGISLATURE

Columbus, O., March 30.—Action of the lower house of the Ohio legislature last week in voting to recess at the end of this week's session until April 22 is expected to have the effect of speeding up legislation in both houses this week whether or not the Senate concurs in the recess resolution.

Dry leaders will attempt a reconsideration of the vote by which the emergency clause on the prohibition enforcement measure was defeated, in the House Tuesday afternoon. Throughout the state, dry forces have been bringing strong influence to bear on representatives to have the emergency clause adopted. Many churches have sent resolutions to the members urging their support of the emergency clause.

Next to the prohibition bill, the biggest question before the assembly this week is the taxation problem.

The Senate will consider the emergency relief bill for cities and school districts Tuesday afternoon. This measure permits a temporary suspension of the limits of the Smith one per cent tax law in order to allow taxing districts to pay off deficits in operating expense by a special levy outside the Smith law.

The resolution proposing a resubmission of the question of classification at a special election May 28 has been made a special order of business for Thursday afternoon in the House.

## AGED PAIR TAKEN TO THE INFIRMARY

Found at the road side, reclining on the damp, cold earth, with the embers of a camp fire affording the only warmth, William Wright and a woman said to be his wife, were taken in charge about ten o'clock Sunday night and escorted to the county infirmary, where they will be cared for until warmer weather comes.

The aged couple apparently have spent the most of their lives tramping about from place to place and begging from citizens along the highway and in towns were camped near Good Hope, Sunday, having nothing on earth except the clothes upon their back, which were soiled, torn and worn threadbare.

For years the man and woman have been tramping about this part of Ohio, and never fail to spend a liberal portion of their time in Fayette county. As a matter of fact they spent sometime in the county infirmary in this county, a year or two ago. A camp fire at the roadside formed the only protection against the cold, and not even a covering of any kind was used except the clothing they wore.

When taken in charge they appeared almost frozen.

## SLEEPING SICKNESS NOT AS PREVALENT AS MANY REPORT

(By Associated Press)  
Columbus, O., March 31.—Only one case of "sleeping sickness," cases of which are being reported from various parts of the country, has as yet appeared in Ohio, according to information reaching the State Department of Health. This case was at Lancaster. The department urged physicians to report immediately any cases occurring in their practice, to facilitate investigation of the disease. "The name lethargic encephalitis has been applied by medical authorities to this disease, many cases of which have been observed in Europe during the past two years," said a statement from the department. "European studies brought out the similarity of the malady to infantile paralysis and some authorities believe there may be a relation between the

two diseases. The new disease has no similarity to the African sleeping sickness caused by the bite of the tsetse fly.

"A complication similar to the present one has often accompanied influenza. The Journal of the American Medical Association says information available indicates that it is only in connection with outbreaks of influenza that anything definitely resembling lethargic encephalitis is described in the older medical literature. The term "Nona" was applied to a similar disease in northern Italy and Hungary in the influenza epidemic of 1889-91. Studies of the present disease are in progress, and it is to all those that the department requests prompt information in regard to cases in Ohio."

## MORE HUN SHIPS IN USE.

Cherbourg, March 31.—(By the Associated Press).—German steamers Java Secundus, Burgomaster, Vonelle, Gemma, Kagera and Rowena have arrived in Cherbourg harbor, where they will take on new crews before proceeding to the United States with American crews and return with food for Germany and other European countries.

DEB'S FRIENDS  
STORM TOLEDO  
CITY BUILDING

Riot Takes Place When The Officials Refuse to Permit Radicals to Enter Hall To Hear Eugene Debs.

Toledo, O., March 31.—When they were refused admission to Memorial Hall, a city building, Sunday afternoon, by city officials, where Eugene V. Debs was scheduled to speak 5000 persons stormed the place, broke windows and doors and then paraded the streets, crying "to hell with the mayor" and all the time Debs was in bed in a Cleveland hotel, where it was said, to ill to appear in public.

A substitute speaker of Debs appeared about 3:30 o'clock, but when he attempted to make an address in public was chased away by policemen.

More than 75 men were arrested, including Thomas Devine, Socialist member of the city council.

Charges of inciting to riot were placed against them, but after 200 policemen had succeeded in breaking up the mob the prisoners were all released without bail.

Announcement that Debs would not be permitted to speak was made late Saturday night, after the Socialists here had prepared to handle an overflow crowd. The announcement appeared in the morning papers and was first notice the Socialists had their meeting could not be held.

When the hour for Debs to speak arrived there were at least 6000 men and women congregated about the William McKinley monument in Court house Park across the street from Memorial Hall.

A man mounted the base of the monument. "We'll use Memorial Hall this afternoon if we have to wade through blood to do it," he shouted. A policeman grabbed him and he was thrown unceremoniously into a patrol wagon. The man who essayed to speak next also was arrested.

And the crowd sensed what was occurring, the radicals began to hoot and boo the officers. Clubs were drawn and the crowd was got moving.

GIBBONS BROTHERS  
INVADE ENGLAND

Mike and Tom Gibbons.

Mike Gibbons, middleweight champion, and his brother Tom, are planning a raid on the English rings early this coming summer. Mike, who has grown into a rather big middleweight, will probably be matched with Becket, the new English heavyweight champion. Becket, according to reports, is a big rough, slow-moving boxer, and should be easy for the St. Paul "phantom."

Mike and Tom Gibbons.

Brother Tom will also be matched with some of the British heavy and middleweight boxers.

ing. Then came the parade through the streets and cries of "Down with the mayor!" "Hang him!" "To hell with the police!" and others of a similar nature.

It was after 5 o'clock before police were able to disperse the crowd. First fights by the dozen occurred on street corners. Hotel lobbies were invaded by the mal contents. Street cars were held up and threats of serious outbreaks were to be heard on ever hand.

Mayor Cornell Schrieber, who issued the order preventing the Debs meeting, in a statement this afternoon said that hereafter no meeting would be permitted anywhere in the city where it is suspected a man of radical tendencies will speak.

CHANGE IN TIME  
IS NOW IN EFFECT

The change of time—turning the clocks and watches forward one hour on Saturday night—was generally observed, and the few persons who forgot to do this awoke Sunday morning to a realization that they were just one hour behind the right time, and speedily readjusted their time pieces to correspond with the correct time.

Sunday school and all church services were carried out according to the changed time, and business will be conducted in the same manner, as was the case last year.

WANTED—EMPLOYMENT!

What are you doing to help furnish employment to the large numbers who are now seeking jobs?

It was patriotic to back the boys when they were in the trenches. It is doubly so now since the boys are coming back and seeking work once more in the peaceful pursuits of life.

Willingly they laid down good jobs to respond to the stirring call to the colors, and it is up to you to do your bit to furnish these men with work.

As they went from all walks of life, they are returning to their various lines of endeavor, consequently virtually any kind of a job you can supply will afford some man an opportunity to earn a livelihood.

Think a moment and then make an honest effort to plan something that will give someone employment.

How about building a house, garage, barn, or other structure? How about a new sidewalk, a fresh coat of paint for the house, or a job in your store or on the farm?

As a matter of fact the need of new homes in Washington would afford employment to every idle man throughout the spring and summer.

Provide the work and the city's population will grow by leaps and bounds. And don't forget that the more work is furnished the better business conditions are going to be, and the more widespread will be contentment and happiness.

Do your best to provide employment for the boys who have come back and for the boys who will yet return. And if you have to sacrifice a little to do it, just remember that 42 brave Fayette county lads made the supreme sacrifice for you.

What are you going to do about it?

For the past several days the attention of passersby has been attracted by a peach tree which has been in blossom for several days, and which is located on East Paint street, this city.

The tree is on the south side of a house where it gets an abundance of sunshine and is protected from the cold west and north winds. So far as known it is more advanced than any other tree of its kind in the city, although a large number of the peach trees are almost ready to burst forth into bloom.
